## **A Sketch of the Baptist Educational Movement in Tennessee.**

---

In the year 1845 the Baptist General Association of Tennessee feeling the need of an institution of learning of high order, resolved to establish and endow a College, known subsequently as Union University. The sum of \$50,000 was raised on what was known at that time as the scholarship plan, and, the entire State co-operating in this movement, the institution was called Union University, and located at Murfreesboro, the geographical center of the State. Rev. Dr. Jos. H. Eaton was made president, and held that position till his death in 1859. During the late civil war, the building was greatly damaged, the library and apparatus destroyed, and the endowment wholly lost. After the war an effort was made to revive the institution, which for several years gave great encouragement to its friends; but the cholera which prevailed in Murfreesboro to an alarming extent in 1873, as well as other causes, led to a suspension of all exercises in the institution, and induced the Baptists of Tennessee to make the location of a College for the denomination in the State an open question. In 1874 a convention was called at Murfreesboro to consider the question of establishing, on a broad basis, a College of high order for the entire State; and commissioners were appointed from the three grand divisions of the State to make a location at the place making the best propositions. The commissioners, after a thorough canvass of all places asking for the location, selected Jackson, Tenn., as offering the best inducements, and their action was ratified unanimously by the Baptist State Convention of Tennessee, and the Southwestern Baptist University is *to-day* the school for young men for the denomination in Tennessee.

## ORGANIZATION.

### UNIVERSITY HIGH SCHOOL.

In this school students are prepared specially for the Mathematical, Classical and Scientific Departments of the University. A thorough mastery of the elementary principles taught in this Department underlies success in other Departments, and subsequent study can rarely, *if ever*, atone for deficient preparation.

The classes in all the studies embraced in this department are graded, and no pupil is allowed to advance from one grade to another without passing a satisfactory examination of all the studies preceding the grade he proposes to enter.

Students pursuing studies of this Department are under the same general principles of government as other students of the University. They receive instruction from the Principal of the High School, his Assistants, and in some instances, from Professors of the University.

*Graduates of the City Schools of Jackson, and of other schools of like grade, will be admitted to the University High School without examination.*

### COURSE OF STUDY.

*First Year:* Physical Geography ; American History ; Latin Lessons ; Science of Arithmetic ; Intermediate Algebra ; How Plants Behave, Gray ; Knox-Heath's Parts of Speech ; Selections from Riverside Literature Series and Modern Classics.

*Second Year:* Johonnot's How we Live ; Tracy's Physiology ; Packard's Briefer Zoology ; Latin Lessons ; Greek Lessons ; Selections from Classic Authors ; University Algebra ; History of United States ; Patterson's Advanced English Grammar.

## DEPARTMENT OF LITERATURE AND SCIENCE.

The Department of Literature and Science comprehends the eight University Schools which are denominated as follows :

1, Latin; 2, Greek; 3, Mathematics; 4, Moral Science; 5, Natural Science; 6, English; 7, Modern Languages; 8, Elocution. These schools are *elective*, and each independent of another ; the Faculty, however, reserving the right to dictate a course of study for those students whose parents or guardians have not specially prescribed what branches shall be pursued.

There is no prescribed time for any one to complete the required course of study in any School of the University. This will greatly depend upon his previous preparation, his capacity and faithfulness as a student. The proficiency is shown by the character of the written examination as the only basis for promotion from one study to another.

Students graduating in any one of these Schools will be entitled to a certificate of graduation in that school.

To obtain admission to any one of the above Schools, the applicant must pass a satisfactory examination on the branches taught in the High School; and if he proposes to enter an advanced class in any School, he must pass a satisfactory examination on all studies previously pursued by that class.

No student can be admitted as a candidate for matriculation unless he presents satisfactory testimonials of good moral character; and, if he should come from another College or Academy, he must present a certificate of dismissal from the institution last attended.

It is impossible to insist too earnestly upon the importance of prompt entrance at the opening of the session with the class on the studies of the term, and of continuance until the subjects are finished. The absence of a few days or weeks at the beginning of the session produces serious embarrassment to the student, and can rarely be made up during the term.

Young men from abroad, intending to become students, are ex-

pected to report to the Chairman of the Faculty within twenty-four hours after their arrival. Failing to do so without satisfactory reasons, they may be excluded altogether.

---

## I.—THE SCHOOL OF LATIN.

Applicants for admission into this School must be thoroughly acquainted with the paradigms of *declension* and *conjugation*, familiar with the fundamental principles of Syntax, and must have read the Reader, Cæsar and Sallust, or their *equivalents*. They must also have pursued some elementary treatise on Latin Prose Composition.

Those unable to enter upon the text-books prescribed for the *first year* in the School of Latin, will take a preparatory course under the direction of the Professor in charge of this School.

The studies in the University course for a period of three years, besides *parallel* reading, are as follows :

JUNIOR.—Latin Grammar, Allen and Greenough ; Cicero's Orations ; Livy, and Latin Prose Composition. *Five hours a week.*

INTERMEDIATE.—Horace ; Cicero de Officiis and Latin Prose Composition. *Five hours a week.*

SENIOR.—Juvenal ; Tacitus' Agricola and Annals ; Latin Prose Composition and History of Roman Literature. *Five hours a week.*

The English pronunciation is carefully taught and strictly followed in the class-room. The advanced classes are also taught to use the so-called Roman and Continental methods.

Candidates for graduation in this School, at their final examination, will be examined upon some author not read in the class-room.

---

## II.—THE SCHOOL OF GREEK.

For admission into this School, applicants must be familiar with the principles of Greek Grammar, especially *declension* and *conjugation*, and must have passed entirely through some Greek Reader and two books of Xenophen's Anabasis. Where applicants are unable to enter upon the text-books prescribed for the

first year, they will receive the special attention of the Professor in charge of this School.

The studies of this School embrace a period of three years, and are as follows :

JUNIOR.—Goodwin's Greek Grammar ; Homer's Odyssey ; Greek Composition, and Memorabilia of Socrates. *Five hours a week.*

INTERMEDIATE.—Alcestis of Euripides ; Herodotus ; Demosthenes on the Crown, and Greek Prose Composition. *Five hours a week.*

SENIOR.—Plato's Apology and Crito ; Antigone of Sophocles, and History of Greek Literature. *Three hours a week.*

Candidates for graduation in this School, at their final examination, will be examined upon some author not read in the classroom.

---

### III.—THE SCHOOL OF MATHEMATICS.

In order to enter this School the applicant must be thoroughly acquainted with the principles of the most advanced Arithmetics, including the Metric System, and must have completed Algebra. Where this is not the case, the Professor in charge of this School either gives or superintends instruction in the above named studies.

The studies of this School embrace a period of three years, and are as follows :

JUNIOR.—Plane and Solid Geometry. In addition to the textbook, the student will be required to do sufficient work to apply the Principles of Geometry by the Algebraic solution of Geometrical problems. *Five hours a week.*

INTERMEDIATE.—Plane and Spherical Trigonometry and Surveying. Navigation optional. Surveying is thoroughly taught ; the student being required to do enough *field work* to become perfectly familiar with the use of instruments, and, indeed, to be a practical surveyor. *Five hours a week.*

SENIOR.—Analytical Geometry, Differential and Integral Calculus, with practical work showing the application to Analytical Mechanics, etc. *Five hours a week.*

Throughout the course of instruction in this School lectures will be given on the history and Logic of Mathematics, and the

student will be required to give lucid demonstrations of principles, close processes of reasoning, with a view to the acquisition of the highest discipline and training of the mental powers.

---

#### IV.—THE SCHOOL OF NATURAL SCIENCE.

The growing interest in this department of science calls loudly for the most extended research and investigation. The means and appliances for the successful prosecution of the studies in this School are enlarged annually.

This School embraces six different departments :

##### I.—GEOGRAPHY.

*Text-Books:* Appleton's Physical Geography; Ritter's Geographical Studies.

##### II.—PHYSIOLOGY AND HYGIENE.

*Text Books:* Johonnot's How We Live; Tracy's Physiology.

##### III. — BIOLOGY.

- (1) Zoology: Holder's Elements; Huxley's Anatomy of Invertebrate Animals, and Vertebrated Animals; Practical work in Field with Net and Microscope; Exercises in Dissection; Lectures and experimental Studies.
- (2) Botany: Bessey's Botany; Figuier's "The Vegetable World."

##### IV.—GEOLOGY AND MINERALOGY.

- (1) *Text-Books:* LeConte's Compend of Geology.
- (2) *Text-Books:* Collins' First Book in Mineralogy; Dana's Manual.

##### V.—PHYSICS AND ASTRONOMY.

- (1) *Text-Books:* Stewart's Physics.
- (2) *Text-Books:* Astronomy, Loomis.

##### VI.—CHEMISTRY.

- (1) General Chemistry, *Text-Books:* Roscoe's Elements; Remsens's Organic Chemistry.
  - (2) Agricultural Chemistry, *Text-Books:* Lupton's Scientific Agriculture.
- 

#### V.—SCHOOL OF ETHICS, PSYCHOLOGY AND LOGIC.

Students admitted into this School need no other preparation

than a course of training equal to two years in the School of English.

The Faculties of the Mind: Perceiving, Attending, Remembering, Conceiving, Judging, Reasoning and Feeling are studied.

The course endeavors to present these subjects thoroughly and comprehensively; it aims to be suggestive and stimulative. Special attention is paid to the relation between these subjects and education.

JUNIOR.—Bowen's Logic; Sidgwick's Fallacies; Political Economy.

SENIOR.—Hill's Elements of Psychology; Gregory's Ethics.

*Works of Reference:* Hamilton's Metaphysics, Lotze's Outlines; Ladd's Physiological Psychology; Bain's Scientific Education; Froebel's Education of Man; Sully's Illusions and many others.

---

## VI.—SCHOOL OF ENGLISH LANGUAGE AND LITERATURE.

JUNIOR.—Irving's Sketch Book, and Washington; Longfellow's Evangeline; Scott's Lord of the Isles and Tales of Chivalry (Rolf); Meiklejohn's English Language, Parts I and II; Welsh's English Composition, and William's Rhetoric.

*Parallel:* Irving's Columbus, Goldsmith and Bracebridge Hall; Longfellow's Poems; Scott's Prose.

INTERMEDIATE.—Macaulay's Essays; Selections from De Quincey and Ruskin; Burke's Speeches on Conciliation with America; Selections from Webster; Genung's Rhetoric and Rhetorical Analysis; Hunt's English Prose Writers.

*Parallel:* Tennyson's Idyls of the King; Milton's Earlier Poems and Spencer's Faerie Queene.

SENIOR.—Shakespeare's Merchant of Venice and Hamlet; Chaucer's Canterbury Tales, (Selections); French—Mayhew On the Study of Words; English Literature, Backus.

*Parallel:* The Historical Plays of Shakespeare, with Readings in Green's Short History of the English People; Shakespeare's Lear, Macbeth and Othello.

*Graduate Course:* Langland's Piers Plowman with Historical Studies; Sweet's Primer of Anglo-Saxon, with the History of the English Language; Aelfric's Homilies with the History of Early English.

*History:* Special attention is paid to the arranging and directing of courses study in English and American History. The various libraries afford materials for this without cost to the students.

The entire course is intended to train the student in expression, oral and written; to cultivate a love for the great masters of literature and to lead the student to a life-long study of our people especially of the higher life and thought embodied in their literature.

*Graduation:* For the degrees of B. P. and B. A., Senior English is required; for M. A. the Graduate Course must be taken. All students completing the Graduate Course will be enrolled as Graduates in College English.

---

## VII.—SCHOOL OF MODERN LANGUAGES.

### GERMAN.

**JUNIOR.**—Collar's German Lessons; Stein's Exercises; Niebuhr's Griechische Heroen-Geschichten; Buchheim's Modern German Reader, Part II; Becker's Friedrich der Grosse.

The course aims at thoroughness and hopes to lead the students to extensive studies in these languages.

---

## VIII.—SCHOOL OF ELOCUTION AND ORATORY.

### FIRST YEAR.

*Fall Term.*—I. Introductory Lecture on the Art of Expression.

2. Respiration for the development of the lungs and economy of breath. 3. Larynx Drills for strength and flexibility of vocal organs 4. Orthœpy, for correctness of enunciation and distinct articulation. 5. Physical culture—Calisthenics and vitalizing for developing and acquiring complete control of the muscular force. 6. Action—Position of feet, gesture and attitude of body, for ease and grace of bearing. 7. Vocal Culture—for purity, strength and flexibility of voice. 8. Two elements of Vocal Expression: (I.) Quality—Pure Tone, Oratorical, Oral, Aspirate, Guttural, Pectoral, Nasal and Falsetto. (II.) Force—Form, Degree and Stress 9 Study, analysis and practice of selections from "Choice Readings."

The course for the next term will carry forward the work from this point.

---

#### IX.—COMMERCIAL DEPARTMENT.

The growing demand for well-trained, skillful accountants has led the Trustees to open a Business College in connection with the Literary and Scientific course of instruction.

Book-keeping is here taught as thoroughly and as extensively as in any Commercial College in the United States. The student is taught Arithmetic in all its branches, including Partnership, Percentage, Profit and Loss, True and Bank Discount, Commission and Brokerage, Single and Double Entry Book-keeping, Banking, and all kinds of business pertaining to clerkships in Railroad offices, Manufacturing Establishments, and every other kind of business of which any record is kept. He can here, in a few weeks, obtain an accurate knowledge of *Practical Business* that will secure a good paying position immediately on graduating. A diploma from this Department will be a guarantee of ability to discharge successfully the duties of any clerkship or accountant.

The course of study is the same as that pursued in Eastman's Business College, Poughkeepsie, N. Y., and at but little over half the expense.

PROF. JAMESON has been connected with one of the leading Business Colleges in the South for the past eight years as principal instructor.

---

#### DEGREES.

The regular degrees conferred by the University are as follows:

1. The Degree of MASTER OF ARTS is conferred on students who graduate in all the Seven Schools of the Department of Literature and Science.

2. The Degree of BACHELOR OF ARTS is conferred on those who graduate in the Schools of Latin, Mathematics, Natural Science, Moral Science, English, German and French, or their equivalents.

3. The Degree of BACHELOR OF PHILOSOPHY is conferred on those who graduate in the Schools of Mathematics, Natural Science, Moral Science, English, German and French.

Besides these regular Degrees, a student who pursues the course of study of any school, and passes a satisfactory examination, is entitled to a degree of Graduate in that School.

The above Degrees are not bestowed as compliments, but are conferred by the Trustees upon the recommendation and endorsement of the Faculty, for having successfully completed certain studies; and diplomas are delivered as an evidence of such award.

No Degree will be conferred on any student of the University, unless he shall have sustained a good moral character, and settled all College bills.

---

## HONORS.

All students attaining a grade of 90 are enrolled as Proficients; those reaching 95 as Distinguished Proficients. Every incentive for earnest, thorough work is offered to the students.

---

## PRIZES.

### I.—THE STRICKLAND GOLD MEDAL.

This medal was established by Charles H. Strickland, D.D., Sioux City, Iowa, and is given to the graduate that delivers the best oration. This year this medal was bestowed upon W. T. Young.

### II.—THE JOSEPH H. EATON MEDAL FOR ELOCUTION.

This medal was founded by T. T. Eaton, L.L. D., Louisville, Ky., in honor of his father, the founder of Union University, and for many years its honored President. It is awarded for the highest proficiency in Elocution and Oratory. Bestowed upon A. A. Davis.

## III.—THE J. R. GRAVES AWARD.

J. R. Graves, LL. D., Memphis, Tenn., annually awards a prize for the best essay written by some member of the Society of Religious Inquiry upon some assigned topic. Bestowed upon W. F. Dorris.

## IV.—THE SAM. W. MEEK MEDAL.

This was established by Mr. Sam'l W. Meek, Nashville, Tenn., and is awarded to the representative of the Calliopean Literary Society that shall make the best effort in the Annual Celebration of that society. Bestowed upon S. M. Bray.

## V.—THE APOLLONIAN MEDALS.

These are awarded by the Apollonian Literary Society; one for the highest proficiency in Oratory, the other for the greatest improvement during the session. This year they were won respectively by W. J. Spear and J. L. Frost.

## VI.—THE FRANK JARMAN MEDAL

Will be conferred upon that member of the Apollonian Literary Society that shall make the best effort in Elocution in a contest to be held the Friday evening immediately preceding the Commencement Exercises. It was established by Mr. J. F. Jarman, of Jackson, and is open to the entire society. Bestowed this year upon J. L. Crook.

## VII.—THE CALLIOPEAN MEDALS.

The Calliopean Literary Society awards a medal to each member taking a University Degree.

---

RELIGIOUS CULTURE IN STUDENTS.

In connection with the discipline of the intellect, it is the purpose of the University to inculcate a pure morality and the great fundamental truths and doctrines of the Christian religion. To this end, the public exercises of each day are opened with the reading of the Scriptures, singing and prayer; and on the Sabbath the students of the University are required to attend the public worship of God in some of the churches of Jackson. *All are earnestly urged to attend regularly some Sabbath-school of their own choice in the city.* Lectures are delivered in the Uni-

versity Chapel at stated times, by the members of the Faculty and ministers of the several denominations in Jackson, on subjects touching the great moral duties of man.

---

### LITERARY SOCIETIES.

There are two Literary Societies connected with the University: "Calliopean" and "Apollonian." These Societies have halls sufficiently large for all practical purposes, in which they hold weekly meetings for improvement in debate, declamation, composition and criticism, and for the study of parliamentary law. The students of the University are encouraged to connect themselves with one or the other of these Societies, and thus early in life learn to argue connectedly upon any subject brought to their attention, and acquire the power of thinking and reasoning without embarrassment.

Each Society has its own library and furniture adapted to its wants. The University library is also open to all the students on stated days.

---

### THE J. R. GRAVES SOCIETY OF RELIGIOUS INQUIRY.

The object of this society is set forth in its name. Its founder has been instrumental in furnishing its hall in a most elegant style. The members are mainly those who are preparing for the Christian ministry; they meet weekly and engage in exercises that prepare them for their great work.

The Society needs additions to its library, and will gladly receive donations. From Dr. C. H. Strickland and others it has already received valuable gifts.

---

### BENEFICIARIES.

Students of all denominations having the Gospel Ministry in view, when properly recommended by their churches, and having license from the same to preach the Gospel; also the sons of ministers deriving their entire support from the active work of the ministry, and unable to pay the regular fees, are admitted to

the University free of charge for tuition. Assistance in paying for their board has been rendered to young men in the past, and like aid, in certain instances, will be extended to young men having the ministry in view, and approved by the Board of Ministerial Education located at Jackson. Those desiring such assistance should correspond with the Chairman of the Faculty.

The Matriculation and Incidental Fees are required alike from all.

---

### LOCATION.

The South-western Baptist University is located at Jackson, Tenn., the crossing of the Mobile & Ohio and the Illinois Central railroads, and now the terminal point of the Tennessee Midland Railway. Centrally located upon three grand trunk lines that run "through" trains to all the great cities of the Mississippi Valley, the University is easily accessible from all points of the Union.

---

### THE CITY.

Jackson is not surpassed by any inland city in the Southwest for the healthfulness of its climate, the public spirit and enterprise of its citizens, and the cultivation and refinement of its society. Young gentlemen connected with the University here find a cordial welcome to the first families of the city, insomuch that the longings for home are soon forgotten by reason of the generous hospitality extended to them.

---

### GENERAL REGULATIONS.

Students in the higher Departments of the University are expected to study in their rooms at their boarding-houses, and to report to their professors for recitations or lectures at appointed hours, according to the Schedule of Recitations, which is fixed at the beginning of the session. They are not permitted to visit the business portions of the city during study hours, nor to leave their rooms at night except by permission of some member of the Faculty.

A record of every recitation, or absence, excused or unexcused, of each student is kept, and from this record his standing is determined, and a circular containing the same is sent to his parent or guardian, showing his deportment, attendance or non-attendance upon recitation, lectures, and other college duties, together with any other remarks the case may require. Reports will be sent to parents or guardians in the middle and at the end of each session of five months.

In marking and grading, a scale of tens (or one hundred) is used for simplicity and convenience by the entire Faculty, and when the figures are translated into ordinary language they have about the following meaning: 100 is perfect; 90 excellent; 80 very good; 70 good; 60 barely passable; below 60 means that a student is so deficient or imperfect as to be put back, or as not to be allowed to go ahead to more advanced studies. Conduct is also graded on the scale of 100; every student on entering is credited with 100 as perfect, and all deductions from this ideal standard are caused by demerits. Each unexcused absence from University duty counts at least two demerits, and misconduct is demerited according to its aggravation.

Students are required to have four and only four recitations each day, unless otherwise allowed by the Faculty for such reasons as may seem proper. After having entered a class, they are required to perform such duties as are assigned to other members of the class; and in no instance are they permitted to leave their class or enter others without having first obtained permission from the Faculty.

During study hours students are not permitted to visit the business portions of the city, nor be found upon the streets, in the shops, stores or other places, except on urgent business, permission for which having been first obtained from some member of the Faculty. They are not allowed to be on the campus during study hours, nor about the buildings, but are required to withdraw to their homes, or go to the library or reading room for study, when not in the recitation rooms.

Students entering at any time are expected to continue until the close of the session, and no deduction of tuition fees will be allowed for voluntary withdrawal.

In cases of withdrawals, the written authority of parents and guardians will be required. They are urged not to encourage

nor permit their sons or wards to withdraw except in extreme cases.

---

### LIBRARY.

The University is furnished with a Library, which, including the Libraries of the two Literary Societies, numbers about three thousand volumes.

---

### DISCIPLINE.

The discipline is mild but firm, and is directed to the establishment of correct habits and an elevated character. The University does not propose to become a reformatory institution for the eradication of vicious habits. If a student cannot be influenced by measures founded on principles of morality and gentlemanly propriety, or is habitually inattentive to the discharge of his duties, he will not be a desirable member of the University, and will be required to withdraw.

---

### EXAMINATIONS.

Two regular examinations are held; the first at the close of the first term, ending in January, and the other at the close of the collegiate year in June. The examinations are both oral and written, and together with the record of the recitation, serve to make up the standing of the students for the entire year. Any student failing to stand an examination with his class will not be allowed to compete for any prize or honor of the University, nor be permitted to advance to the next class.

---

### TERMS AND VACATIONS.

There are two terms in each year. The first term for 1888-89 begins the first Monday in September, and continues twenty weeks; the second term begins on Monday after the close of the first term, and continues twenty weeks. Commencement Day occurs on the first Thursday in June.

regular vacation continues from the first Thursday in June opening of the fall term.

## EXPENSES.

## UNIVERSITY HIGH SCHOOL.

Tuition per term of twenty weeks:

|                      |         |
|----------------------|---------|
| First Division.....  | \$18 00 |
| Second Division..... | 20 00   |
| Incidental Fee.....  | 1 50    |

## DEPARTMENT OF LITERATURE AND SCIENCE.

|                                           |         |
|-------------------------------------------|---------|
| First year, per term of twenty weeks..... | \$25 00 |
| Second and third year.....                | 30 00   |
| Incidental Fee.....                       | 3 00    |

## ELOCUTION.

Course of Class Lessons, five per week, for term of six weeks, in class of twenty.....\$ 6 00

All students of every character pay but once \$1.00 each, which is appropriated for current expenses.

All bills for tuition must be settled in advance, and no student will be permitted to recite before matriculation. No portion of the tuition fee will be returned on account of *dismissal or withdrawal for any reason*, and no deduction will be made for absence arising from sickness, unless the sickness be protracted beyond one month.

Parents and guardians are *earnestly* requested not to furnish their sons or wards with unnecessary pocket change. All that is needed is just enough to pay for traveling expenses, tuition bill, the necessary text-books, and board for one month in advance. More than sufficient for the above wants may form, not only habits of extravagance, but may result in utter ruin to the young man and others besides. Patrons of the University should deposit with some member of the Faculty all sums of money necessary to meet the wants of their sons or wards, and forbid the opening of accounts with merchants and others. A lavish expenditure of money is wholly incompatible with good, faithful study.

It is deemed very important for parents or guardians to understand that, not including clothing and railroad fares, the entire expenses of a student here for the collegiate year of ten school months should fall within ONE HUNDRED AND EIGHTY-FIVE DOLLARS. If a student spends more than that amount, he should be called STRICTLY TO ACCOUNT. Indeed, the expenses

of several of our best students have not exceeded *one hundred and fifty dollars* for the year. There is probably no institution in our country where equal advantages can be secured at *less* cost.

The expenditures for clothing, books and pocket money will depend upon the character of the student and the disposition of the parent or guardian. *It is desired that parents and guardians should bear in mind that too liberal an allowance of money exposes the student to temptation while it in no wise contributes to his standing in his classes, his happiness or respectability.*

---

### BOARDING.

Boarding can be had in private families at \$10.00 to \$13.00 per month, everything furnished except washing, which is twenty-five cents per week.

To show how cheap a student *may* board, we append the following: "Expenses for school year, beginning September, 1886, and ending June, 1887:

|                        |         |
|------------------------|---------|
| Furnishing room.....   | \$ 8 70 |
| Meals.....             | 34 70   |
| Washing.....           | 6 30    |
| Coal.....              | 3 15    |
| Coal Oil.....          | 5 25    |
| Other necessities..... | 60      |

|                        |         |
|------------------------|---------|
| Total.....             | \$58 70 |
| Deduct Furnishing..... | 8 70    |

Actual cost of Board.....\$50 00

Average cost per scholastic month.....\$5 00."

Students are allowed to board only in such families as are recognized by the Faculty as suitable for boarding the students of the University. Whenever a change is proposed in the boarding-house, the student is required to notify the Faculty and obtain consent before making the change.

Persons intending to send their sons and wards are requested to correspond with the Chairman of the Faculty, with the view of securing suitable homes.

## GENERAL PRINCIPLES OF GOVERNMENT.

Every member of this Institution is expected to conduct himself in all his relations with gentlemanly propriety, and in such a way as will best secure the object for which it was organized — the highest moral and intellectual training of those who enter it.

Each student, before matriculating, is furnished with a copy of the laws of the University, which he is required to sign, and comes under the obligation of the following Pledge:

*"I hereby give my personal PLEDGE OF HONOR that so long as I am a member of the Southwestern Baptist University, I will be subject to all the Principles and Regulations that are now in force, or may hereafter be adopted by the Faculty for the government of the Institution"*

~~No~~ No student who shall wilfully absent himself from College without excuse, for a single day, shall be allowed to compete for any *prize* or *honor* of the University, nor take any part in the public entertainment of either of the Literary Societies.

Rev. John H. Thompson, A. B., 1873, Minister, Springfield, Mo.

E. F. Friedell, A. B., 1877, Lawyer, Texarkana, Ark.

After an elegant repast, speeches were made by the guests responding to the welcome of Judge Hammond, and reviving the recollections of boyhood days.

Judge Hammond urged the necessity of thorough class organizations, and obtained a pledge from every one present to send to Dr. George W. Jarman, of Jackson, Tenn., a communication giving full information as to the members of his own class and what he may know of his own classmates, or those who were associated with him at college, whether living or dead.

It was unanimously resolved that the thanks of all present be extended to Judge Hammond and the ladies of the house for the choice refreshments and elegant entertainment of the evening.

Thus closed the largest and most enjoyable reunion ever held by those once connected with Union University. It will never cease to be a bright spot in the memory of all present.—Memphis Appeal, May 13th, 1889.

---

The session has been successful. The number of students in attendance has been gratifying. The character of their work will be pleasing to those interested. In all departments, no efforts are spared to make the training just what it should be.

We invite further investigation and correspondence.

Plans are under consideration to cheapen board, so that a student can live at \$6 or \$7 per month.

We can furnish accommodations for a limited number of young men at present so that their boarding expenses will cost

them only about *five dollars per month*. ELEVEN YOUNG MEN HAVE LIVED AT THIS RATE DURING THE SESSION JUST CLOSED.

For further information, address,

GEORGE W. JARMAN,  
Ch'm of Faculty, Jackson, Tenn.

## Commercial Department.

---

### ANNOUNCEMENT.

---

Open the whole year and every day in the year except Sunday. It affords us much pleasure to announce to an appreciative public that this department, which at first was only an experiment, has, "after a trial of seven months," proven, "as the attendance will show," to be a success.

### THE MAIN OBJECT.

The main object of this department is to meet the existing and growing demand for this class of education, and to place it within reach of all who may wish to take such a course.

### WHAT WILL IT EMBRACE?

Right here we wish to assure our patrons and friends that this department will be full and complete in all of its appointments, and no pains, time or expense will be spared to make it compare favorably with any institution of the kind in the country.

This course will be thoroughly revised during the summer, not with the view of making it more thorough, but the object will be to lay aside old forms and ideas for new ones leading to the same result.

### WHAT IT EMBRACES.

This department will embrace Book-keeping, Single and

Double Entry and its practical application to every different kind of business, thereby making the student as familiar at the time of graduation, with a tedious, complicated set of Commission Books, as with the simple daily transactions of a country store.

### COMMERCIAL ARITHMETIC.

A thorough knowledge of this important branch is indispensable to the successful Accountant, and if any particular part of this department should receive more attention than another, it would be this. Book-keeping at best is but the result of a multiplicity of calculations, and the accuracy of those results can only be determined by the proficiency of the person who makes them, as every entry may be properly Journalized and correctly posted on the Ledger, yet not a single one may be correct on account of an error or errors in extension.

### THE OBJECT IN VIEW.

The object in view is to acquaint the student with such rules and methods as would be of service to him in all his business relations.

Under this head will come practice in rapid addition, short methods of Multiplication and Division, a thorough understanding of Fractions, Percentage in all of its applications, Brokerage and Commission, rapid methods of calculating Interest and Discount, finding the missing term when the rest are given, Partnerships, and the Average of Accounts.

### COMMERCIAL LETTER WRITING.

This branch will be taught with an eye single to the correct mechanical construction, correct wording and direct expression, thereby conveying the meaning intended in the fewest words possible and avoiding redundancy of language, which is out of place anywhere, but more particularly so in a business letter.

### ORTHOGRAPHY.

In connection with the above, daily written exercises in spelling will be practiced. We cannot lay too much stress on the

necessity of becoming a correct speller. A letter may be written in a faultless hand, a fine display of language may be made, it may even be eloquent, yet if the page is marred by an occasional mis-spelled word, the reader will lay down the missive with a feeling of pity, mingled with disgust for the writer.

### COMMERCIAL LAW.

The importance of a thorough understanding of Contracts, Negotiable Paper, the duty and scope of a surviving partner in case of the death of the other, the proper way to settle up an insolvent business, how to write a Bill of Sale, Mortgage, Deed or Will, and many other things treated of in this important book can hardly be over estimated.

This branch will be taught by a practicing Attorney, who will not confine himself to the text book, but will give the law upon the subject under discussion as it now is and not what it was.

### MARKING.

The rapid and graceful use of the brush in plainly marking packages, boxes, bundles and bales is an accomplishment but few persons possess, and should be learned by every book-keeper and salesman, as the object of every young man in preparing himself for business should be to become thoroughly acquainted with every detail of the office and wareroom, so that if the work in the books is not sufficient to keep him busy, he could employ at least a part of his spare moments in lightening the work of his fellow employees: such an *allaround* man and willing worker always catches the business eye of the employer, and at the proper time his reward for his extra pains comes in the shape of an increase in salary.

### ADVANTAGES OFFERED.

Attention is specially called to page 24 of the catalogue, where it refers to the advantages Jackson offers in the way of health, besides unusual religious and social advantages offered students in attendance at her schools.

Students of this department will be governed by the same rules and discipline as those of the University proper, and will be admitted to all public lectures of the same.

### COST.

Tuition for first month, \$12.00, and \$10.00 per month for each succeeding month. Tuition for three months, if taken at time of entering, \$30.00; for four months, if taken at time of entering, \$35.00. Tuition, books, board, washing for a three months course, \$77. Same for four months, \$95.00.

Students from the University taking this course will be charged \$25.00 for a full scholarship, whether it requires one or more terms.

Students from the University will be admitted to the Writing classes for the entire session by paying a fee of \$5.00, which will include a full course in Letter Writing.

### TIME REQUIRED.

The time required to complete the full course will depend upon the qualifications and aptness of the student, also the way in which he applies himself.

A student possessed of a common school education can complete in from three and a half to four months, as he can make more rapid advancement than one whose opportunities have been meagre and whose mind does not show that readiness to grasp and see through things at a glance; but the student who has not the proper literary advantages, need not be discouraged, as what he lacks in previous preparation, can be overcome by hard work and close application, and he can complete the full course in from four to five months.

All students who complete the full course and stand a satisfactory examination of the same, will be awarded a Diploma in recognition of their being thorough, trust-worthy and competent accountants.

### A NEW FEATURE.

Ladies are admitted to this department on the same terms as gentlemen.

## A WORD TO YOUNG MEN.

It should be the desire of every young man to prepare himself for business of some kind, and a thorough knowledge of Book-keeping and its kindred subjects\* is applicable if not actually necessary to the successful management of any kind of business.

The farmer should keep an account of the cost of every product of his fields in order to be able after a few years of experience to determine which of them, in proportion to the amount of money and labor expended, would yield him the largest gain.

The lawyer likewise, should have a thorough knowledge of accounts in order to be able to represent the true interest of his clients. If he did not possess such knowledge, when a statement should appear as evidence in court against his client he would have to accept it as correct or bear the expense of employing an expert accountant to examine the work to determine whether or not it was correct.

The merchant more than any other class of men, should not only be an accountant but an expert accountant. Statistics will bear us out that four-fifths of the failures that occur in this country every year are caused by a lack of vigilance upon the part of the merchant in not frequently examining his books and comparing his cash on hand with the amount his books call for. The merchant without such knowledge is perfectly and wholly at the mercy of his Book-keeper.

## "WHEN SHOULD I ENTER?"

We often receive letters making inquiry as to the time of entering, or when is the best time to enter? We always answer *now*, it matters not whether *now* appears in January, June or November. A majority of students however, enter during January and September, but the proper time to enter is when you are not particularly engaged otherwise. You should not wait until a position is offered you before you make up your mind to prepare yourself for such a position. When a mer-

chant sees that more help is needed in his establishment, he begins to look around for some suitable person to perform the work.

### ANNOUNCEMENT.

---

The Ninth Annual Session of the Memphis Hospital Medical College, Medical Department, Southwestern Baptist University, will begin October 28th, and continue until March 1st, 1890.

There will be two vacations during the Session, one on Thanksgiving day, the other during Christmas week, from December 25th, 1889, to January 1st, 1890, inclusive.

In announcing another session the Faculty are determined to spare no pains nor expense which may be required to make the Course as thorough and comprehensive as possible. This is composed of able and experienced teachers, whose personal training and long familiarity with didactic and clinical methods, render them fully competent to instruct.

### THE CLINICAL ADVANTAGES

of this College are excellent. The supply of material congregated within the wards of the City Hospital, is gathered not only from Memphis, but also from the States of Tennessee, Mississippi, Arkansas and Alabama. The poor and improvident of these States naturally seek this city, since it is the nearest point where hospital accommodations can be procured. With such a field it is already perceived that ample facilities may be obtained for clinical instruction. Five clinics will be held each week by members of the Faculty.

## CLINICS.

*Surgical*—Prof. Rogers.*Medical*—Prof. Neely.*Eye, Ear and Throat*—Prof. Sinclair.*Gynæcological*—Prof. Maury.*Diseases of the Rectum*—Prof. Henning.

## DAILY EXAMINATIONS

will be held by each Professor immediately before the regular lectures upon the subjects previously lectured upon; and all the students, especially candidates for graduation, will be thoroughly catechised from day to day, and their proficiency noted. These examinations obviate the necessity for, and therefore the expense of the quiz, which is common in many of the medical schools.

## REQUIREMENTS FOR GRADUATION.

1. The candidate must be of good moral character, and have attained the age of twenty-one years.
2. He must have attended two full courses of lectures, the latter of which shall have been in this Institution. He must also have practiced dissection during at least one session.
3. Each candidate must deposit with the Dean of the Faculty, on or before the 15th of February of the year of graduation, the *graduating fee*, which will be returned in case of rejection.
4. He must pass a satisfactory examination upon *all* of the branches taught in this College.
5. The degree will not be conferred upon any candidate who absents himself from the Commencement without consent of the Faculty.
6. No examination for graduation will be granted in advance of the time fixed for examining the entire class, without the *unanimous* consent of the Faculty.

## EXPENSES OF THE SCHOOL.

Students may, after matriculating, attend any one or more of the courses of Lectures, by paying \$10 for each ticket. Graduates of this and other recognized Medical Colleges are required to matriculate only.

### BOARD.

Good board can be procured near the College at from \$4 to \$6 per week. Students should call upon the Dean, Prof. W. B. Rogers, M. D., No. 69 Madison Street, for information regarding board, etc. Those going to the College directly on their arrival in the city, will be conducted to suitable boarding houses by the Janitor. Street cars pass the Dean's office and from thence to College direct.
